This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

China	Tael	*See* note page 124.
Japan	Yen	„ „ 128.

Note.—The equivalents are not in all cases the exact equivalents at the exchange of the day, but rates which are convenient for comparisons over long periods. This applies especially to those countries with inconvertible paper currencies. In the case of the South American Republics, where the dollar is taken at 4*s.* or 4*s.* 2*d.*, it will be observed (*see* page 40) that the official values are below the real values, and it has been deemed unnecessary to make any further allowance for the depreciation of the money.

Note.—The above statement represents the business of the Western Union Telegraph Company only. This Company owns the principal part of the whole of the United States Telegraph system.

The large increase in the mileage since 1880 is principally due to the fact that in 1881 the Western Union Telegraph Company absorbed by purchase all the lines of the American Union and the Atlantic and Pacific Telegraph Company, the former having previously in operation over 12,000 miles, and the latter 8,706 miles.

The aggregate mileage of the telegraph lines in the United States open for public business exceeds 210,000 miles besides railway, Government, private, and telephonic lines, the length of which is not ascertainable.

* The returns received by the Statistical Bureau of passengers departing from the United States do not distinguish permanent emigrants from transient travellers. The figures entered in this column have been derived from the body of the table by deducting the number of "non-immigrants" from the whole number of departures for each year, the process being based on the consideration that of the former number those who are reported as "Citizens of the United States" have previously departed and been embraced in the reports of departures, while those reported as "Aliens not intending to remain" will depart in future and be so reported. These figures will therefore be substantially correct for any series of years, but may not be strictly so for any one particular year.

† After June 30th, 1885, immigrants arriving from the British North American Provinces and Mexico are not included.

¶ Including Export Duties for Immigration purposes.

** These amounts do not include the proceeds of "additional duties" levied from time to time on all imposts, and ranging from 10 % to 20 %. These duties were repealed in June 1888, the rates of import duty being at the same time proportionately raised.

§§ See Note to Table No. 2.

‖ Years ended 30th September, (1877 to 1889).

*** Exclusive of export duties, not distinguished in the revenue statements for these years.

¶¶ For the 12 months ended 31st March of the year following that stated above.

† *Net* tonnage; the St. Vincent returns for years prior to 1888 showed the *gross* tonnage of vessels.
‡ Including River Murray Trade, but exclusive of shipping entered and cleared at Port Darwin, amounting to 157,090 tons in 1886, 207,853 tons in 1886, 233,460 tons in 1887, 170,453 tons in 1888, 169,162 tons in 1889, 164,264 tons in 1890, and 170,642 tons in 1891.
¶ In the Queensland Shipping Returns arrivals and departures of vessels were, prior to 1883, entered for every port in the Colony which they called. The returns now given, however, for 1883 and subsequent years, show only the *direct trade* of the Colony.
¶¶ Including "clearances" of Mail Steamers, not shown prior to 1886.
‡‡ Including Murray and Darling River Trade, not shown prior to 1886.
* For the 12 months ended 31st March of the year following that stated above.
